Title-Mazda policy on Environment	Rev No.-02	Rev Date-01.10.2016

ENVIRONMENT POLICY

Protection of the environment is integral to our business strategy toward sustainability and we shall strive to fulfil all our environmental obligations and commitments

Compliance-

- ✓ Comply with all the applicable environmental and related legal and other requirements and, wherever feasible, strive for “beyond compliance” leadership. Verify compliance with these standards through regular auditing.
- ✓ Develop, and maintain environmental management systems across the company to meet the company standards as well as statutory requirements for environment. Assess environmental impact of all its activities and set continual improvement objectives and targets and review these periodically.

Pollution prevention-

- ✓ Prevention of pollution leading to minimization of air emissions, liquid effluents, solid waste and conservation of resources such as water, fuel, chemicals and power.

Resource Utilisation-

- ✓ Improvements in our products and processes resulting in reduced environmental impacts.
- ✓ “reduce, reuse and recycle” philosophy for all types of wastes to prevent pollution

Greenhouse gases

- ✓ **Reduce greenhouse gas emissions from our manufacturing**
- ✓ CO₂ emissions from fuel from our factories will be below 2010 levels despite higher volumes.
- ✓ We will use of renewable energy (wind mill based electricity) by setting up wind mill.
- ✓ Roha new factory will aim to have 10% less the impact than Turbhe.

Reduce energy consumption in our offices

- ✓ By use of more energy efficient design, electrical gadgets, we will reduce the energy requirements.

Reduce employee travel

- ✓ We have invested in a video conferencing facilities to make communication easier to reduce travel for our employees. We have recruited and encouraged personnel to settle down in nearby urban areas.

Sustainable sourcing

- ✓ Use paper bag packaging instead of plastics. wherever feasible.

Involvement-

- ✓ Involve all employees in the implementation of this Policy and provide appropriate training. Communicate the environmental policy to all employees, customers, business associates and other stakeholders
- ✓ Work in partnership with external bodies and Government agencies to promote environmental care, increase understanding of environmental issues and disseminate good practices.

Forestation

- ✓ We will manage land use change (deforestation aspect)
- ✓ We recognize and apply national laws and practices relating to nature conservation and deforestation
- ✓ We will avoid damage to High Conservation Value (HVC) and High Carbon Stock (HCS) forest
